

SAP SUCCESSFACTORS: THE ADESSO HEALTH CHECK

FUTURE-PROOF SYSTEM QUALITY AND PROCESSES – FOR A COMPELLING EMPLOYEE EXPERIENCE OF TOMORROW

The adesso Health Check lays the foundation for stable systems, efficient processes, and a sustainable employee experience.

Digital transformation requires flexible work models, cloud systems, and mobile access—which means HR solutions need a future-proof foundation.

With the adesso Health Check, we analyze your SAP SuccessFactors landscape, identify opportunities for optimization and potential risks, and use this information to develop a prioritized strategy with a roadmap that strengthens your HR systems and makes your processes more efficient.

YOUR BENEFITS AT A GLANCE

LESS ADMINISTRATIVE OVERHEAD

We identify unnecessary manual steps, redundant processes, and system breaks. Standard configurations, clear workflows, and a consistent data structure result in significant time savings in day-to-day operations.

ENHANCED SYSTEM AND DATA SECURITY

We review your configurations for inconsistencies, misconfigurations, and risks. This allows us to improve data quality, increase process stability, and reduce sources of error in downstream processes, analyses, and integrations.

SUSTAINABLE COST SAVINGS

Strategic use of existing SAP SuccessFactors features maximizes the return on your investment. Optimized processes and fewer errors reduce long-term operating, support, and customization costs.

IMPROVED EMPLOYEE EXPERIENCE AND GREATER ADOPTION

Streamlined processes, clear system logic, and consistent user guidance make day-to-day work easier. This increases adoption, encourages the use of relevant features, and supports employee retention.

SCOPE OF THE ADESSO HEALTH CHECK

SYSTEM AND PROCESS ASSESSMENT

From technical configuration to end-to-end HR processes, we analyze your SAP SuccessFactors implementation and identify deviations from best practices and potential risks.

CUSTOMIZED REPORTING

We summarize the analysis results in a structured, client-specific report—with clear, prioritized recommendations for action, tailored to your organization and system landscape.

IMPROVEMENT AND AUTOMATION STRATEGIES

Based on the identified weaknesses, we propose concrete optimizations: simplified workflows, fewer manual tasks, and appropriate automations to increase efficiency, data quality, and process stability.

FUTURE-PROOF ALIGNMENT

We support you in the strategic development of your HR solution and work with you to create a roadmap to ensure your SuccessFactors environment remains scalable, supports future requirements, and runs stably in the long term.

SUITABLE FOR COMPANIES THAT WANT TO GET MORE OUT OF THEIR HR SOLUTION

- ✓ For companies that already use SAP SuccessFactors
- ✓ For organizations that want to optimize their HR solution in a targeted manner
- ✓ For companies with complex HR structures and multiple modules
- ✓ Particularly useful when organizational changes occur regularly
- ✓ Ideal as a structured, recurring quality and optimization review

OUR ADESSO HEALTH CHECK SERVICE

With the adesso Health Check, you receive a comprehensive assessment of your existing HR solution and a clear basis for decision-making regarding its further development. The starting price is **€5,000 (plus VAT)** and increases on a modular basis depending on the number of modules selected as well as the scope and complexity of your implementation. Upon request, we will provide a **free, no-obligation quote** tailored to your requirements.
